Hawkeye-5: Portable aqueous ozone mist based disinfectant system combats bacteria, mold, germs and *viruses such as the coronavirus, MERS, SARS, and ebola.*

Ozone: widely used disinfectant purifies municipal water supplies, bottled water, hospital laundry, and many other industrial and commercial products. 50 times more powerful and over 3000 times faster acting than chlorine bleach, and requires only air, water, and electricity to be created, with virtually no recurring cost. Ozone molecules attack contaminants, penetrate the cell membranes, and through a lysing process destroy them.
