# Artillery Battle Management System

## Forward Observer

## Gun

## Battalion FSE

## Brigade FSE

## ABMS

Command, Control, Communication and Computer Intelligence (C<sup>4</sup>I) system tailored for artillery forces.

- 1) The ABMS commands & controls operational artillery plans and orders amongst the various artillery command posts down to the gun level.
- 2) The system is based on proven technology utilized in:
  - Gun Navigation & POinting System (NAPOS)
  - Battery & Battalion Fire Direction Center (FDC)
  - Forward Observer System (FOS)
  - Battalion & Brigade Fire Support Elements (FSE)

## Battery Fire Direction Center

## Battalion FDC
